

Freezer Engineering, LLC employed a very creative solution on a variety of Siemens and Pilz control equipment. The original software was not in possession, and the original Siemens version was unknown. Freezer Engineering LLC used a NAT managed switch to redirect IPs to successfully put the equipment on Coorstek network.

## 2021 COORSTEK IP ADDRESSES

### Project Summary

Freezer Engineering LLC used a NAT device to redirect IP's on a variety of Controls equipment.
